### NOTICE

The infield odds board and TV monitors will be cleared when the tote machines are locked and wagering closes on a race. After the wagering pools from simulcast locations are received, combined with on-track pools and totaled, the final pools and odds will be displayed on the infield board.

### DAILY TRIPLE COMBINATIONS

*The Daily Triple is a multiple race bet. And since most players prefer to select more than one horse in each race, it's helpful to calculate the number of combinations to determine the total cost of your Daily Triple ticket.*

#### EXAMPLE

Fifth Race: three selections..... 3  
Sixth Race: one selection..... 1  
Seventh Race: two selections..... 2

Just multiply the number of your selections in each race!

$$3 \times 1 \times 2 = 6 \text{ combinations}$$

Then multiply the number of combinations by your base wager.

$$\text{\$1 base wager} \dots\dots\dots 6 \times \$1 = \$6$$

$$\text{\$2 base wager} \dots\dots\dots 6 \times \$2 = \$12$$

$$\text{\$5 base wager} \dots\dots\dots 6 \times \$5 = \$30$$
